Air Quality Forecast for the UK

Issued by the Met Office

Today: After a mostly cloudy start, brighter conditions soon develop as clouds lift and break through the morning with plenty of sunny spells across the UK into the afternoon. Largely dry but with a few isolated showers at times. With this, air pollution levels will remain Low.

Tomorrow: Another day of sunny spells and isolated showers, with air pollution levels remaining low.

Outlook: Rather changeable conditions across the week, with most areas seeing some fine weather, especially in the south and east, maintaining Low levels of air pollution.
